Description The HPC 4-Wheel KeKab® offers the security you've come to rely upon, plus the convenience of a quick-change combination lock! This lock features a key-override and easy-to-use decoding tool. Let your customers take full control of their keys by quickly changing their lock combination to allow or deny access to others! The 4-Wheel KeKab® includes: 4-Wheel Combination Lock, resettable to 10,000 possible combinations Over-Ride Key in the event the combination is lost Decoder Pin to determine the combination White Plastic Key Tags with bright nickel plated snap-hooks which can hold multiple keys on each snap-hook. The tags are numbered for easy identification. Durable Steel Key Racks that are slotted to store key tags uniformly for immediate identification. Out Key Control Tags that are made of yellow paper. They are used for accountability (to record information on loaned keys). A Numbered Key Control Booklet for lock location data. Unique powder textured painting process that provides an attractive and very durable finish. The neutral sand color allows them to be hung anywhere. Heavy Gauge Steel Construction with piano hinged doors provide a sturdy location to secure your keys.
