

Advanced Diagnostics ADS2207 Jaguar / Land Rover Software - IL ADA2207

Key Programming Software Update
Jaguar/Land Rover®
ADS2207
October 2021

 **What does the software do?**
This programming software allows you to program keys for select popular Jaguar® and Land Rover® models. Keys can be added or programmed from a lost key situation and the process has been designed to bypass the PIN code automatically making it a single, seamless operation. The proximity key can simply be placed and programmed.

Note: This software is available for Smart Pro only.

Release Date:October 2021

Programs:

Jaguar/Land Rover?

Advanced Diagnostics update of the ADS2207 key programming software for Jaguar®, Land Rover®, and Range Rover® to include models with the Keyless Vehicle Module (KVM) that have a DPLA part number.

What does the software do?

The ADS2207 software programs proximity keys for select popular Jaguar® and Land Rover® models. Keys can be added or programmed from a lost key situation and the process has been designed to bypass the PIN code automatically making it a single, seamless operation. The proximity key and remote functions are programmed simultaneously.

Note: This software is available for Smart Pro only.
