

Advanced Diagnostics ADS2263 BMW Software - IL ADS2263

Key Programming Software Update
BMW® 2011
ADS2263
October 2021

What does the software do?
This software allows the user to program aftermarket slot keys and remotes for BMW and Mini vehicles fitted with CAS 3 and CAS 3+ modules and push button start. The remote and transponder are programmed at the same time and the Smart Aerial is required during the procedure to program the key. A PIN Code or a working key are NOT required. Additional keys can be added without deleting existing keys.
Note: This software is available for Smart Pro only.
