

Advanced Diagnostics ADS2292 Volkswagon / Audi Software - IL ADS2292

Key Programming Software Update
VAG® 2019
ADS2292
October 2021

What does the software do?
Advanced Diagnostics is updated to increase the degree of new capability with a free update for the ADS2292 key programming software for Volkswagen. The software update adds support for vehicle models of the popular VW Golf (7th generation) platform and the software is available for **ADS2292** users programmed to work on compatible Volkswagen models.

What else will I need?
The software update requires a Smart Pro key and a Smart Pro key with push button start for Volkswagen models. All keys and remotes will be erased prior to programming new ones. The software bypasses the security PIN code during the procedure and programs the remote and the transponder at the same time. A working key and the Smart Aerial are required to complete the ?Add Key? procedure. All Keys Lost support has been added with this free update. The ADC-219 cable and Smart Aerial are required for All Keys Lost situations. Note: This software is available for Smart Pro only.
