Description These boxes are designed to secure a restricted key where it is needed. The textured red steel box has a key-locking hinged door with a Plexiglas window. When an emergency arises and access to the key is necessary, break the Plexiglas with the attached hammer. The Fire Department Box comes with dark Plexiglas to hide the contents. The Emergency Key Boxes come with a 5-wafer cam lock, keyed-randomly, and they can be keyed-alike or keyed-differently to meet virtually any security requirement.
