### Description

Ilco Bravo III with EZ-Jaw? Lever Operation (Semi-Automatic) Key Machine

SKU: - Bravo III with EZ Jaw

- [Overview](#)
- [Features](#)
- [Technical Data](#)

- The Bravo III is a high precision, heavy duty semi-automatic key machine designed for ultra reliability and ease of use.

The Bravo III key machine is provided with the CU50A cutter and a corresponding cutter guide. The durable cobalt steel cutter ensures a smooth, clean, accurate cut. The Bravo III is designed to duplicate common cylinder and automotive key blanks as well as Titan? and older GM? with 90 degree first cut bitting

- ? Bright built-in light illuminates working area

? Wide spacing between vise jaws accommodates new longer keys and large headed keys.

? Versatile four-position EZ-Jaw? vise jaws securely grip virtually all residential, commercial, and automotive keys? including double-sided types, without requiring adapters. Designed with the user in mind, they are rotatable from one position to another without lifting first.

? Carriage is spring loaded, provides consistent cutting pressure, and reduces potential for miscuts.

? Automatic cutter start feature controlled by micro-switch is activated by raising or lowering the carriage

? Precise adjustments. A tracer point with micrometer dial regulation makes it quick and easy to adjust depth of cut; simple to replace

when worn

? Carriage release button can only be activated when the key gauges are in the down position, preventing potential cutter contact.

? Electro-magnetic ?main? safety switch with a separate cutter motor switch for easy access.

? Two carriage shafts ensure sensitivity and precision in the cutting movement.

? Features a ?soft-touch? deburring nylon brush.

- Power Supply: 120V-60Hz, Rated Current 5.5 Amps

Motor: .25HP, single phase, 1680 rpm

Cutter: BC0505XXXX TiN Cobalt Steel

Cutter Guide: BJ0853XXXX

Brush: BJ0855XXXX 5/8" (15.7 mm) Nylon

Width: 15" (380mm)

Depth: 20" (510mm)

Height: 10" (254mm)

Weight: 47 lbs.(21.4kg)
