Description The Ilco SMART4CAR remote keyless entry flip key housing with embedded GTI transponder duplicates the functionality of the original key. Programmed using the Smart 4 Car programmer. The head has 4 buttons; lock, unlock, alarm and trunk. The flip blade offers a wide range of vehicle key blades that fit within the compact housing design. These provide for easy storage as the blade is folded within the plastic key housing. The housing is designed to accommodate the Ilco GTI transponder as well as other popular transponders available today in the market. The Twenty five (25) automotive key blades available, identifiable by the FB Suffix, cover a wide variety of vehicles. Transponder programmed with the ILCO Rw4 PLus or Ez Clone Plus.
