[Ask a question about this product](#)

Description SMART4CAR remote keyless entry head with/out embedded GTI transponder duplicates the functionality of the original key. Can be used on vehicles that do not require transponder or you can add your own transponder. The modular head uses the same EB3 blades as the ILCO RW4 Plus or Ez Clone Plus system. Programmed using the Smart 4 Car programmer. The head has 4 buttons; lock, unlock, alarm and trunk. EB3 blades ordered separately.
