Description

The Premier Speedex? is a dependable, manual duplicator, equipped with a heavy-duty motor. The 4-way jaws hold a large variety of different key blanks, including double-sided automotive keys. The expansive carriage range accommodates large-bow keys. The reversible tracer allows you to cut flat steel keys with the optional slotting cutter kit (No. CW-16KIT). The Premier Speedex? is mounted on a sturdy base for added stability, and comes with the HPC Softie? de-burring brush. The simplicity of operating this machine makes easy work out of duplicating even a large number of keys. Its durable construction and bronze bearings combine for a long lasting machine.
