Description The Master Lock No. 6325 ProSeries? Shrouded Padlock, keyed alike ? multiple locks open with the same key ? features a 2-3/8in (60mm) heavy steel body that withstands physical attack and a 3/4in (19mm) tall, 3/8in (10mm) diameter hardened boron alloy shackle for superior cut resistance. Ideal for transportation and industrial applications, the iron shroud protects the shackle from bolt cutters and a dual ball locking mechanism resists pulling and prying. The high security, rekeyable 5-pin cylinder with spool pins is virtually impossible to pick.
