Description Rim Exit Devices are used on either single or double doors. When installing on double doors, a mullion (center piece) is required to enable the latch bolt, thus securing the door. All hardware is exposed. Applications include hollow metal, wood or aluminum doors. This style easily retrofits existing doors with Jackson? 1295 exit devices. The Ilco Rim Exit Devices feature a ?? (19 mm) throw latchbolt, non-handed. Surface mounted strike options include type ?C? (standard) and type ?S? (for blade stop). Both types of strikes are included with each device. ? Meets ANSI Grade 1 requirements, UL Listed Life Safety ? Low profile push bar projects less than 3? (76.2 mm) from face of door ? Coated metal end caps ? Non-Handed ? For up to 36? Door ? Easy access dogging system, optional cylinder dogging ? Field sizeable to 30? (762 mm) in width ? Aluminum Finish/ 4'
