Description The Super J? will allow you to open almost any auto with vertical linkage. The Super J? was designed to give your Super Jim? (CO-11) or The Original Slim Jim? (CO-10) an entirely new application. Either tool will enable the Super J? to enter the door as a straight tool. Upon removal of CO-10 or CO-11, Super J? returns to its original J-shaped form. The bend allows it to reach locations inside the door that would otherwise be isolated.
